Your College Future Starts Now
Take the First Step
Toward your Dreams

The MSSAA Technology Institute (MSSAATechInc) Early College/University Education Program (MECEP) offers international high school students the chance to start their college education in the United States, while still in high school. This program allows students to earn college credits early, saving on tuition and providing valuable academic and professional experiences.

M-ECEP partners with accredited colleges and universities across the United States, offering college level courses in various subjects. This enables high school students to explore higher education and earn college credits before graduation. Additionally, students benefit from M-ECEP's post-secondary education and professional alumni networks, supporting lifelong learning and growth.

Why M-ECEP?

Unlock Your Future, Earn College Credits and Save Time!

For Students:

- **Get a Head Start with College Credits:** Students can earn college credits that may be transferred to participating colleges or universities.
- **Save Money on College:** By earning credits early, students can reduce the years spent in college, saving on tuition costs.
- **Discover Various Academic Discipline Early:** The program allows students to explore different fields of study, such as science, technology, business, or the arts.
- **College-Level Support:** Students receive guidance from qualified faculty and academic advisors, preparing them for future academic success.

For Families:

- **Affordable Education:** M-ECEP helps families reduce education expenses by enabling students to earn college credits early.
- **College Readiness:** The program prepares students for college life challenges, enhancing their time management, study skills, and academic rigor.
- **Access to Top Institutions:** Families gain access to high-quality education programs and work with top academic professionals.

How Does M-ECEP Work?

M-ECEP is designed to fit seamlessly into the student's high school schedule without causing any disruptions. The program collaborates closely with families to ensure that the student's progress towards their high school diploma remains on track, and M-ECEP will never be a limitation. This is how it works.

- **Enroll in College-Level Courses:** Students take both college and high school courses simultaneously.
- **Complete Assignments and Exams:** Students complete college assignments, projects, and exams to earn credits.
- **Obtain College Transcripts:** Upon successful completion, students receive an official college transcript indicating courses completed and credits earned.
- **Transfer Earned College Credits:** Credits earned are transferable to partnered and non-partnered colleges and universities, towards an undergraduate degree.

Why M-ECEP Stands Out?

- There are many respected academic programs globally, each with unique curricula (For example AP, IB, Pre-college, Dual Enrolment (DE), AICE, etc.). They all help international high school students transition into accredited US colleges and universities. However, M-ECEP guarantees admissions into partnered US colleges and universities upon successful completion of both high school diploma and M-ECEP program.
- The M-ECEP Program is a game changer for international high school students seeking a global education. It combines international high school qualifications with US college courses, offering a unique pathway to undergraduate academic success.
- Whether you are a 9th, 10th, 11th, or 12th-grade student looking to get a head start in your college career and seeking advanced academic challenges, M-ECEP provides a structured yet flexible option to accelerate your education and achieve your undergraduate academic goals.

Comparing M-ECEP and Current Global Programs

Curriculum	M-CEP	Dual Enrolment	Advanced Placement (AP)	International Baccalaureate (IB)	AICE
Type of Credits	M-CEP	Dual Enrolment	Advanced Placement (AP)	International Baccalaureate (IB)	AICE
Course Level	College-level courses	College level courses	High School level, college equivalent	High School level, university prep	High School level, university prep
Transferability of Credits	Guaranteed transfer to partner and non-partnered colleges	Credit transfer guaranteed to aligned colleges	Credit transfer depends on AP score and college	Credit transfer depends on IB score and college	Credit transfer depends on IB score and college
Flexibility	Wide range of subjects and fields	Wide range of subjects and fields	Limited to AP subject offerings	Limited to specific IB subjects	Limited to specific IB subjects
College Experience	Authentic college experience with actual college professors	Authentic college experience with actual college professors	High school course with college equivalent exam	High school course with university-prep level exams	High school course with university prep level exams
Global Reach	Open to high school students in the US and globally	Open mostly to high school students in the US.	Available in select high schools globally	Available in select high schools worldwide	Available in select high schools worldwide
Academic Rigor	Real-world college standards	Real-world college standards	P exam based evaluation	Rigorously academic with high standards	Rigorously academic with high standards

Contributing to College GPA	100%	100%	Depends.	Depends.	Depends.
Support	Access to academic advisors, mentors, faculty	Access to academic advisors, mentors, faculty	Teacher-led support	Teacher-led support	Teacher led support

What are the Key Benefits of M-ECEP Program

- **Accredited College Credits:** Students can obtain at least 9 transferable college credits from eligible colleges and institutions in the United States.
- **Intensive Curriculum Exposure:** Students are exposed to both international high school curricula and U.S. college-level courses.
- **Early Research Experience:** Students engage in research activities that contribute to their academic development.
- **Cost Savings:** Earning college credits early can save tuition costs and reduce the time needed to secure a degree.
- **Improved College Competence:** The program prepares students for college and beyond.
- **Access to MSSAATech Alumni Networks/Communities:** Students have access to high school alumni networks and MSSAATech's undergraduate, postgraduate, and professional communities.
